

**START OF CONSTRUCTION
NEW WATER AUTHORITY HEADQUARTERS**

**SOUTH SIDE OF UNION TURNPIKE
WEST OF
NEW HYDE PARK ROAD
NEW HYDE PARK**

July 2012

The Water Authority of Western Nassau County (the "Water Authority") would like to inform you that it is planning to start construction of Phase II on its new headquarters building on or about Thursday, July 12, 2012, and the work is expected to continue for approximately fourteen (14) months. The work is being performed by the Water Authority's approved contractor, Excel Builders Group, Inc. of Commack, New York.

The new headquarters will be located on the south side of Union Turnpike west of New Hyde Park Road. This location is an existing Water Authority property, which currently houses two (2) water supply wells and a garage.

The majority of work will take place on the Water Authority's property. All deliveries and access to and from the site will take place through the existing entrance located on Union Turnpike. No work is expected to take place on Soma Street.

The new building will be situated on the north side of our property. When the project is complete the only entrance to our property will be on Union Turnpike.

Work each day will begin at 7:30 A.M. and end by 5:00 P.M., Monday through Friday. There is no work planned for Saturdays, Sundays or holidays.

Please feel free to contact the Water Authority at 516-327-4100, if you have any questions about this project and its progress. Information about the progress of this project will also be available on our website, www.wawnc.org.
