

## Emerging Contaminant Project

The Water Authority has an active project to address emerging contaminants, including perfluorooctanoic acid (PFOA), perfluorooctanesulfonic acid (PFOS), and 1,4-Dioxane.

In the Fall of 2022 a letter will be sent to all customers regarding a continuing deferral issued for PFOA, PFOS and 1,4-Dioxane.

Please visit our [Projects](#) page for updates on this project.
